3740 kHz: primary night time frequency

Arnie Coro, CO2KK
IARU Region II
Emergency Coordinator

For Member-Society contact information: www.iaru-r2.org/ms_e.htm

The Cuban government embraces Amateur Radio as an emergency communications resource. The FRC provides emcomm training to its members, and emcomm is a function of the FRC for the government. The FRC supports the Cuban National Civil Defense organization. There are approximately 800 members able to support the emcomm function in the country. Source: Arnie Coro, CO2KK, and the GAREC-2005 Preparatory Report.
